

High quality catheters at low pricing

Biosensors International

Polyurethane Thermodilution Catheter

Non-Heparin coated

Biosensors thermodilution catheters provide vital diagnostic information at the bedside, in the cath lab and post operating room since 2003.

In 2013, Biosensors introduced Non-Heparin coated thermodilution catheters to improve the biocompatibility of cardiopulmonary bypass.

Today, thousands of Biosensors TD catheters are being used by major top ranked US Heart facilities.

Polyurethane Thermodilution Catheters

- TD2504NXF 5 French, 4 Lumen PU Catheter*
- TD2604NXF 6 French, 4 Lumen PU Catheter*
- TD2704NXF 7 French, 4 Lumen PU Catheter*
- TD2704NCXF S-Curve™ 7 French, 4 Lumen, PU Catheter
"S" curve tip for femoral approach*
- TD2755NX 7.5 French, 5 Lumen, PU Catheters 110cm*
- TD2755NXF 7.5 French, 5 Lumen, PU Catheters 110cm
Firm (F) version*

*Packaged sterile in barex teardrop tray, 5 per box.
Additional configurations available upon request.*

Convenient fully accessorised all-in-one tray saves time and reduces supply inventories.

critical care solutions delivered full circle

Polyurethane Thermodilution Catheter

Four-Lumen Catheter Setup

Four-lumen thermodilution pulmonary artery catheter for measuring cardiac output (CO), central venous pressure (CVP), pulmonary artery pressure (PAP), and pulmonary capillary wedge pressure (PCWP).

Reduce Risk

Minimize Costs

Deliver Value

Biosensors thermodilution catheters provide rapid and accurate measurement of cardiac output by thermodilution.

- + **Medication lumen** permits blood sampling, fluid and drug administration and central venous pressure monitoring
- + **Thermister connector** compatible with commonly used cardiac output computers to monitor pulmonary artery blood temperature
- + **PA distal lumen** allows mixed venous blood sampling and measurements of pulmonary artery/capillary wedge pressure
- + **Distal balloon** provides excellent symmetry and tip coverage for safe flotation of catheter and pulmonary capillary wedge pressure measurements
- + **Injectate lumen** carries cardiac output injectate solution to the right atrium, accommodates blood sampling, fluid and drug administration and attachment to pressure transducer for monitoring right atrial pressure
